The Dragonfly has been a dream of ours for many years. We are so excited to finally be able to share it with you!

For years we looked for a cottage that had character, serenity, and lots to do.

We hope you enjoy the space as much as we do and that you make memories to last a lifetime.

Hello

@THEDRAGONFLYMI #THEDRAGONFLYMI

ABOUT US

The first trip we took to this lake was at a different cottage just down the road. We had just lost our beloved dog, Luther, and needed to get away. We decided to go kayaking and were immediately surrounded by dragonflies. They say dragonflies are a symbol from loved ones that have passed— sending you a quick hello.

Later that day, we found this property and fell in love. The name the property needed was obvious. We just had to call it The Dragonfly — in honor and remembrance of our goodest boy.

We hope it brings you peace and tranquility like it does us.

WE ARE PET FRIENDLY!

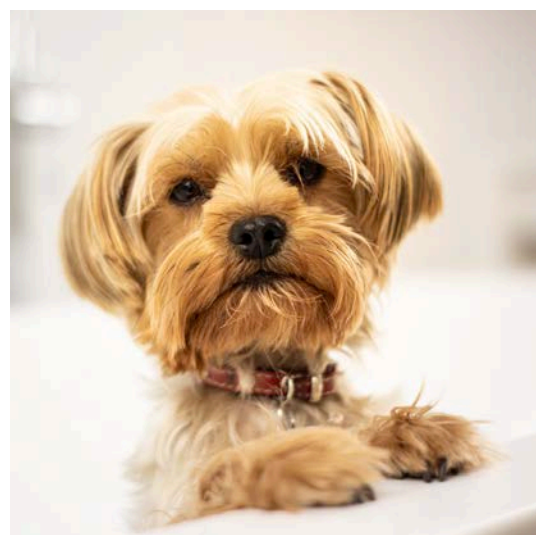

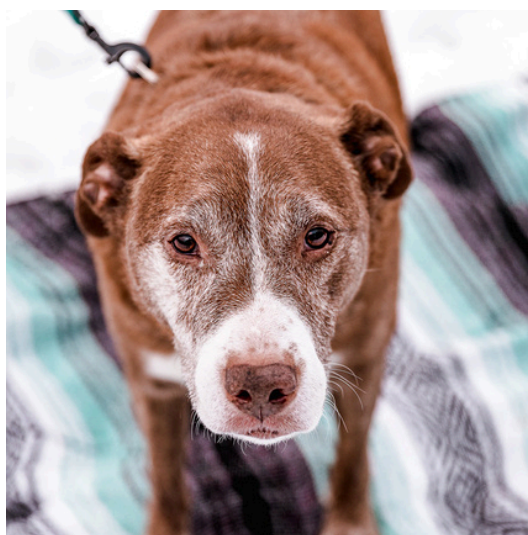

WE WELCOME YOUR FUR BABIES

We ask that you please let us know before your stay if you are bringing your dog with you so we can make the necessary arrangements. Our pet fee is \$145 for the first dog. There is no additional charge for the second dog. We have a two dog limit unless otherwise discussed.

There is a dog bed in the living room, as well as dog dishes in the dinning room! Slow feeders are also available for use. We do have a "no pet on the furniture" rule and ask that you use the provided dog bed instead.

Please be sure not to leave your furry friend alone for long, as they can get sad and bark — which will disturb our neighbors. Plus, they want to hang out with you! If you need to leave the property, please crate your dog. You can find two crates in the bedroom nearest the bathroom, under the bed.

To make the most of your time with your doggo, we have noted throughout this guide which establishments are pet-friendly!

11

HISTORY OF INTERMEDIATE LAKE

Appropriately named, Intermediate Lake is situated approximately in the middle of the Elk River Chain of Lakes, which is a series of 14 lakes and interconnecting waterways that eventually flows out into East Grand Traverse Bay. Intermediate Lake is a long, sinuous lake located between Hanley Lake (upstream) and Lake Bellaire (downstream) and connected to both via the Intermediate River. Intermediate Lake began as a river and became a lake when the Bellaire Dam was created. In fact, Intermediate Lake was at one time called Central Lake - thus how the city of Central Lake came to be named.

The town of Central Lake is located at the lake's north end and in fact, Intermediate Lake was at one time known as Central Lake. Although the north end of Intermediate Lake has a lot of residential development, a large expanse of coniferous forested wetland exists at the southern end of the lake. Most of the near-shore bottom of Intermediate Lake is sand or gravelly sand, with a few rocky areas and some muck. Muskgrass (Chara), native watermilfoils, and pondweeds are common aquatic plants found in the lake.

Intermediate Lake is popular for all sorts of recreational activities including fishing. Fish that have been reported through various Department of Natural Resources surveys include walleye, bluegill, logperch, yellow perch, large- and smallmouth bass, pumpkinseed, longnose gar, white sucker, rock bass, whitefish, cisco, muskellunge, northern pike, rainbow trout, lake trout, brown trout, and sunfish.

When rating your stay, please consider that short-term rental rating scales are different than traditional hotel ratings

Vacation rental platforms consider anything below 4.6 to be a negative review.

We always strive to give our guests a 5-star experience. If you feel your stay was not 5-star worthy, please contact us first so we can fix any issues and make your experience great!

Please use this as a guide when rating your visit online:

-  *I enjoyed my stay here*
-  *There are many issues to fix*
-  *Major problems with my stay*
-  *This should not be listed*
