- The **Hot Tub** must be covered when not in use. Note that the hot tub pump will run when not in use on a pre-programmed schedule in order to keep the water clean and filtered, and up to the set temperature. Please leave floating chlorinator in there. It works with the ionizer to keep the water clean. Please check the chemical level daily (more with heavy use), using test strips in the hot tub closet. If chlorine level is low (not purple on the test strip), add a capful of granular chlorine to the water. The water level should be maintained at approximately 6" below the top of the tub. Please be sure to call us with any questions. Do not let the hot tub overflow.

Winter Specific Info

- You will find 3 VIP **parking passes** to use for front row parking at the South Ridge base lodge on the inside of the pantry door. This paid parking area is not manned on weekdays or after 10 am, so for guaranteed parking, arrive before 10 am.
- If not using the VIP parking pass, our favorite place to **park** at the Mountain is along the Roadrunner Trail on your way to Barker Base Lodge. About 50 yards after turning left on the Barker access road, you will see cars parked along the left side of the road. Join them anywhere along the trail stretch. Ski down to White Cap to purchase your ticket. When you leave, ski to your car from the Barker Base Lodge area. No hiking with your skis involved! You may also consider buying your multi-day pass at southridge the evening before to avoid any lines or hassle in the morning.
- Please remember the **golf course** is private property. It is great for **sledding and snow shoeing**, but do not walk on frozen grass unless there is at least 1 foot of snow covering the entire course. It will kill the grass and the golf club will charge us/you \$ to replace it (they will track your footprints). With less snow, try sledding down the driveway and the sides of the cul-de-sac.
- **No skis or** snowboards in the house please! They damage flooring and woodwork.
- **No ski boots** beyond the tile entry. **Boot dryer** located in the foyer coat closet.
- If it is snowing, or snow is expected overnight, please leave the **driveway** free of cars so they may **plow** effectively. If the driveway or walkways need to be plowed or sanded, please call us, use the sand provided, or call the plow company directly. Use of the driveway and accesses is at your own discretion and risk.

Summer Specific Info

- The pool should be 82 degrees if you paid for pool heat. Please let us know if it is not.
- Please use courtesy on the **golf course** and remember that it **is private property**. You may not use it for practice or golfing without a paid reservation. If used with respect (proper shoes, keep sand traps raked clean) you can fly kites or walk the paths after hours. You can also use it for the short walk to the **Club house** for lunch or golfing anytime. The pathway to the course is located behind the tree house.
- Please, **no glass near the pool area**. Plastic dishware is provided.
- It is important that the **solar cover** stay on the pool whenever it is not in use in order to keep out leaves and maintain the temperature. The pool temp can drop 20+ degrees overnight without it.
